

LIQUI-CAL

Liquid Sprayable Calcium Supplement

Product Description

- LIQUI-CAL is a high analysis, stabilized liquid calcium suspension for the correction of calcium deficiencies and strengthening cell walls.
- Calcium is important in maintaining proper base saturation levels of anions that populate the soil colloids. This product can be applied for soil pH modification.
- Calcium causes the release of the sodium from soil exchange sites reducing salt content of soils
- LIQUI-CAL is formulated from organically certified materials and can be applied as a foliar treatment.

Guaranteed Minimum Analysis

Calcium (Ca) 20.0%
 Derived from: Calcium Carbonate

General Use Guide

Soil Corrective Applications General Turf	<ul style="list-style-type: none"> ▫ Apply at a rate of 1 to 5 gallons per acre with sufficient water for proper application. ▫ Actual rate of application should be determined by soil and tissue tests.
---	---
