

Z e t a p l e x <sup>TM</sup> Mn / Mg

**Product Description:**

- Zeta plex MGN Soluble 25 is formulated with specific micronutrients - Manganese and Magnesium -proportioned to provide a biological synergy for fast green up with lasting results
- Zeta plex MGN Soluble 25 is complexed for immediate uptake and utilization by the plant
- Manganese, an enzyme activator, is essential for chlorophyll synthesis and proper plant metabolism
- Magnesium is an essential component of chlorophyll. Soils that are high in phosphorous content can inhibit the uptake of Magnesium

**Guaranteed Analysis**

Manganese (Mn).....	25.0%
Magnesium (Mg).....	0.5%
Sulfur (S).....	16.0%

Derived From: Manganese sulfate and Magnesium sulfate.

**How Campo Verde Zeta MGN Soluble 25 Works:**

Zeta plex MGN Soluble 25 is the combination of a patented amino acid polymer and a proprietary manufacturing process providing a product that is readily taken into plant tissue and remains available to the plant for substantially longer periods.

*This allows maximum plant nutrition utilizing low dose applications.*

Zeta plex MGN Soluble 25 delays the formation of insoluble, unavailable precipitates due to the interaction of positive and negative ions.

**General Use Guide**

<p><b>Golf Course Greens &amp; Tees &amp; Fairways</b></p> <p><b>Professional Lawn Care</b></p> <p><b>Athletic Fields</b></p>	<p><b>SOIL CORRECTIVE RATE:</b>  <i>A soil test should be performed to determine the actual deficiency amount.</i>            Apply at 7 pounds per acre (two x 3.5 pound bags) in a minimum of 44 gallons of total solution per acre and/or sufficient water for proper coverage.            This rate will provide 1.75 pounds of manganese per acre.</p> <p><b>MAINTENANCE &amp; COLOR RATE:</b>            Apply 1.75 pounds per acre (one x 3.5 pound bag covers 2 acres) in a minimum of 44 gallons of total solution per acre and/or sufficient water for proper coverage.            Repeat application on a 7 to 14 day basis.            Warm Season turf may require more frequent application to achieve</p>
